OUR GRADUATES

“

The 'Get into Tech' course was helpful for me since I come from a background with no IT, or coding knowledge. It gave me a brief insight into the mechanisms of maintaining web pages.

As a result of this course, I got to familiarise myself with WordPress and create and host my very own online portfolio which will help me gain an edge in the professional field.

“

Before I started the Get Into Tech Bootcamp, I had no idea what my next step was. Now, I have so many ideas and options to move forward, it's hard to choose just one!

In such a short time I've been introduced to many possible career paths, all in growth industries, learning both soft skills and technical skills to help me on my way. It has been challenging at times, but extremely rewarding. I want to thank INCO for this opportunity to upskill and the supportive team and classmates who made it an incredible experience.
